Education

A.P.J Abdul Kalam Technical University B.Tech in Computer Science & Engineering	2022-2026
Sarvoday Inter College Class 9 th to 12 th (UP)	2019-2022

Projects

Garage System(Java,JDBC,MYSQL,JS,HTML,CSS,COLLECTION)	JULY
- Developed a Garage Management System using Java, JDBC, MySQL, HTML, CSS, and JavaScript to manage vehicles, customers, and services. - Designed a responsive front-end interface for booking, repair tracking, and billing. - Implemented CRUD operations and authentication for secure and efficient data management. - Optimized database schema and SQL queries to improve system performance and reliability.	
Weather API(JAVA,SPRING CORE,SERVLET,COLLECTION,SPRINGBOOT,HTML,CSS,JS)	AUGUST
- Built a Weather Application using Servlets, Spring Core, Spring Boot, Collections, HTML, CSS, and JavaScript for real-time weather updates. - Designed a RESTful API layer with Spring Boot to fetch and serve weather data efficiently. - Applied Java Collections Framework for managing and processing API response data. - Developed a responsive front-end UI with HTML, CSS, and JavaScript for seamless user interaction.	

Technical Skills

Language:Java,C,JavaScript
BackEnd :Spring core,Spring Boot(Learning)
FrontEnd:HTML,CSS,JavaScript(React Learning)
DataBase:MySQL,PostgreSQL(Learning)
Developer Tools:PostMan,Intellij,Git,Github

Certifications

Greate Leaning:Java,HTML,CSS,C,JS
Accenture:DATA Visalization
Be10x:AI tools,Prompt Engineering
